1.Introduction of lovely Ainu

Ainu dogs are fluffy hunting dogs that have been native to Japan for hundreds of years. These strong, loyal, and dedicated Ainu fellows are known for being extremely devoted to their owners and are often sought out as lifelong companions

2. What is Ainu Token?

AINU Token is a BEP20 token launched on Binance Smart Chain that is an automatic liquidity-providing protocol that gives out static rewards to HODLers while deflating.

Ainu Token is a result of an idea to create a community driven crypto network. For community support, please check donation section

The ticker for Ainu Token is "AINU". Contract no is 0x2Db0d5Cb907014C67Dc201886624716fb5c71123 and it is trackable on Binance Smart Chain explorer with the link https://bscscan.com/token/0x2Db0d5Cb907014C67Dc20188662471 6fb5c71123

The total supply of Ainu Token is 1.000.000.000.000.000.000 with 9 decimals.

The trading is available on

• PancakeSwap : AINU/BNB

• Coinsbit : AINU/mUSDT

• Indoex : AINU/USDT

3. Tokenomics

3.1. Static Rewarding

As Ainu is a dedicated friend in life, we have deployed the Ainu Token with the same behavior, a lifelong companion that will be there for you. To support this idea, the static rewarding program is included in the tokenomics. 5% of each transaction is rewarded back to holders based on the number of tokens they hold.

3.2. Automatic Liquidity Maintenance / Sustainability

One of the basic issue that the team is obsessed with is the draining Liquidity Pools that happened to a lot other projects. To maintain the sustainability, there is a 5% fee for each transaction that will be added to **locked** Liquidity Pool

3.3. Deflation (Auto Burn)

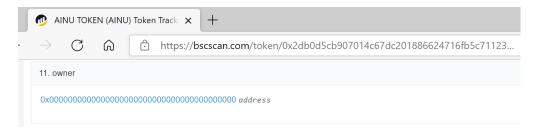

4. Transparancy

4.1. Renounced Ownership

The ownership of the contract is renounced.

 $\frac{https://bscscan.com/token/0x2db0d5cb907014c67dc201886624716fb}{5c71123\#readContract}$

4.2. Locked LP and Quarter Based Burns

The Liquity pool is locked on team.finance till 2021 end.

The Ainu Tokens that are pooled via transaction fees will be burnt at year end and LP will be locked for 3 more months. At the end of each quarter, the pooled transaction fee Ainu s will be burnt, so this will be a rolling quarter base burning mechanism.

As the ownership is renounced to burn wallet, the quarter base burns will be automatically executed.

4.3. Smart Contract Audit

Ainu Token smart contract has been audited by has been audited. The summary part of the audit is outdated, however the aim of the audit was to show the investors that the smart contract is solid without threats.

5. Donation & Fight Against Covid

2020 and 2021 has hit humanity hard with COVID19, taught us new ways of saying hi to each other, new ways or remote working, a totally different way of living. Thousands of people passed away, millions of their families and friend were burst into tears. Most of them was even unable to say a final goodbye to their beloved ones.

We could not just sit down by doing nothing. As Sandeep Nailwal called crypto world in for duty, we paid attention.

So following the footprints of Vitalik who also donated, we have donated 20% of our total supply to the India Crypto Covid Relief Fund. Below is the proof

 $\frac{https://www.bscscan.com/tx/0x15f5b4a21ad82ed281ddcfe3a8fa76140d}{514da09bfecc355418ce54954a7cfe}$

6.Roadmap

The roadmap provided is a phase by phase evolution of our path. After expansion phase we will start to look for opportunities for Tier 1 listings.

BIRTH May 2021

- Defining Tokenomics
- ·Logo Design
- •Website V1
- $\bullet \ Deployment$

CRAWL

- Liquidation
- · Donate to Relief Fund
- ·Maintain Social Media Availability

WALK

- •Website V2
- Indoex Listing
- •Binance Smart Chain Information Update
- Deployment of AINU CHAIN GAME

RUN

- CoinmarketCap Listing
- Coinsbit Exchange Listing
- •+10000 Holders

SPRINT Aug 2021

•AINU Swap integration

7. AINU Swap

Ainu Swap is a decentralised swap platform that interacts with pancakeswap liquidity pools

The Ainu Swap is live at https://swap.ainutoken.net

In the swap platform, investors will be able to swap all Binance Smart Chain tokens and coins.

The Ainu Team is working on further developments with the developer team. When more is done, they will be announced on social media accounts and white paper will be updated accordingly.
